

## 护肤品/化妆品的发展

(摘自 DR.QU 科学研究成果介绍之二)

By Qu Rui (R&D)

第一代化妆品,即单纯性美容化妆品(Beautycare Cosmetics)

多以动,植物为原料,制造出单纯美容为目的的化妆品.是暂时的,美容作用不明显,有的对皮肤有伤害.

第二代化妆品,即营养保健护肤化妆品(Health Skincare Cosmetics)

多以人工合成化学原料为基质,配合一些营养成分为内容,制造方便,成本低廉,品种较多,具有一定的护肤作用,逐步取代了第一代化妆品.但因有的化学原料内,含有铅,汞,砷等毒性物质的不利因素,且也不能防止皮肤病,故,影响了美容化妆品的发展.

第三代化妆品.即医学美容化妆品( Medical Skincare Beauty Cosmetics)

是以科学实验的手段,又选用无毒副作用,且有营养,护肤美容和防治皮肤病的天然物质为原料.使化妆品重返大自然,以便避免化学性化妆品对皮肤的毒副作用.天然草药和物质应用于化妆品,是第三代化妆品的主流.在东方医药宝库中,有许多中草药和天然动物精制品具有养颜,护肤和疗效的美容作用.

“DR.QU”美容系列护肤品/化妆品为第三代化妆品,是运用现代科技实验技艺,提出天然原料中的有效成分,根据特效成分,研制成各项“天然活性化妆品”.如DR.QU抑螨美容系列.除有效地清洁皮肤,促进皮肤新陈代谢.增强皮肤营养,润肤保湿,祛斑,平皱,防晒等防止皮肤老化的“基本美容作用”之外,其主要特点;是在各项化妆中,还都含有“天然抑螨素”,能抑制人体皮内的螨虫(即毛囊虫)(Demodex. or Hair follicle mite ).因为97.68%的成年男女面部皮内都有螨虫,该虫能使人体皮肤老化,甚至发生酒渣鼻皮肤病.严重的影响人们美容.“消灭螨虫是美容的第一步”!

“DR.QU”医学抑螨美容护肤品/化妆品是目前世界上独特的产品.采用天然原料美容作用的基本原料为基础再配入特殊防病美容的天然成分.例如抑螨的抑螨素(Demodidicin),防治粉刺(Acne)的粉刺素(Acnin).....等.因此,它是当今世界新一代美容护肤化妆品发展的一个新趋向和象征.

# **Cosmetics Development**

## **- The Third Generation Cosmetics Today**

### **The First Generation Cosmetics - Beautycare Cosmetics**

The cosmetics was manufactured for Beauty & Beautycare of human. Raw materials of cosmetics was come from nature plant, animal...,and effect of Beauty & Beautycare of the cosmetics was not obvious, not good for skincare ,and some harmful to skin.

### **The Second Generation Cosmetics - Health Skincare Cosmetics**

The base of the Cosmetics are in artificial chemosynthesis materials and also with more health, nutrition materials. Its characters are more easy to manufacture, lower cost, and more kinds of products are good for skin and skincare. But some of these kinds chemical materials are many in toxic matter (Lead, Mercury, Arsenic...) or harmful to skin and never to prevent from skin disease.

### **The Third Generation Cosmetics - Medical Skincare Beauty Cosmetics**

Character is to apply high level science and technology (advance chemical and pharmacy engineering ...) with health medical & dermatology medical theory, and to use more nature materials with haveno toxin & side effect being combined with more health & nutrition matter to make skincare & more beauty - promote skin metabolism, and also using more nature medicine herb into cosmetics for preventing skin disease.

"Dr.Qu" Cosmetics is belong to "The Third Generation Cosmetics" today - and is following health medical and dermatology medical theory and research, using high level science and technology manufacturing (chemical & pharmacy engineering standard.), using quality raw materials in amino-acid, multi-vitamins. multi-trace elements, super oxide dismutase (SOD), using more nature herb and raw materials in nutrition skin, and it is an skincare & skin beauty series of nature active cosmetics, also containing "Dr.Qu natural Demodicidin" to eliminate/prevent from human Demodex (one kind of parasites) affect / Acne Rosecea / Hair follicle mite / Prevention and treatment Acne Vulgarize or Pimple....other skin diseases. And also the "Dr.Qu" Cosmetics can make your skin maintancing skin oil and water balance, dispeling pigments, smoothing wrinkle, anti-sunshine, promoting metabolic, protecting skin drainage, secrete, absor & normal physiology function, maintaining skin smooth & soft, full of elasticity & delays skin aging.....So,

**Wiping out the Demodex is the first step for your skin beauty ! and only**  
**"Dr.Qu" cosmetics can help you in the world !**
